

Carbon Reduction Plan

Newlay Floors
Version 1.0

Supplier Name

Newlay Floors Ltd.

Publication Date:

24/05/2024

Commitment to Achieving Net Zero

Newlay Floors Ltd is committed to achieving Net Zero emissions by **2050**. This CRP conforms to PPN 06/21. Data was calculated by Greenly

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2023	
Additional Details relating to the Baseline Emissions calculations.	
<i>This is our first year of actively baselining our carbon measurements. We have used historical data from May 2023 to map our CRP</i>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	6
Scope 2	0.7
Scope 3 (Included Sources)	6.1
Total Emissions	12.8

Current Emissions Reporting

Reporting Year: 2023	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	6
Scope 2	0.7
Scope 3 (Included Sources)	6.1
Total Emissions	12.8

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **6.4 tCO₂e** by **2027**. This is a reduction of circa **50%**. We will achieve this by switching our lease vehicles to electric versions and also by providing our sales team with an electric vehicle.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been implemented since the 2023 baseline. The carbon emission reduction we hope to achieve by these schemes equate to **circa 6.4 tCO₂e**, a **50%** reduction against the 2023 baseline and the measures will be in effect when performing the contract.

- Lease Electric vehicle for Operatives Team - reduction of circa **6.4 CO₂e**

In the future we hope to implement further measures such as:

- LED Lighting in the office areas and storage areas
- Introduction of Solar Energy
- Electric Vehicles
- Continued education on effective recycling use

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Richard Smith
